

The TV TEACHER™

January 1, 2018

The TV Teacher's unique handwriting program uses the evidence-based theory of video modeling. We use a multi-sensory approach of visuals, rhythmic chants, and repetition to teach children how to write letters, numbers, and shapes.

Each visual program is divided into 3-7 minute learning chapters. These chapters will primarily focus on teaching writing formations and will also include vocabulary words and skits to reinforce the learning of the focused item. Additional learning benefits also include letter identification, phonics, and many functional skills including gross motor, fine motor, and self-help skills.

We are the sole creator and producer of these award-winning handwriting programs. This is a copyrighted program that is exclusively owned by The TV Teacher, LLC. Since 2014, we have been the sole vendor for any and all of our products.

If you have any questions or I can provide anything further, please do not hesitate to contact me.
